GPA: Grade Point Average is calculated by multiplying the percentage of research activity at each grade (4\* to unclassified) by a weight. The weightings are:

4\* = 4

3\* = 3

2\* = 2

1\* = 1

Unclassified = 0.

These figures are then added and the total is divided by 100.

GPA x staff: This gives an idea of the "research power" in that unit of assessment for each institution. It is calculated by multiplying

ighting factor.

the GPA by the number of FTE staff submitted.
