

International Student Scholarship Awards Initial Agent Comms

In recognition of the continued commitment of international students to London South Bank University, we are proud to launch the **LSBU Future Global Graduate Awards**.

The awards are given as two separate financial incentives to international students on acceptance of their offer and receipt of their deposit. The first Award, **The Vice-Chancellor's International Merit Award** recognizes outstanding academic achievement of students obtaining grades approximately 75% and above and comprises an award of £2,000 for each academic year.

The second award, **The Global Success Scholarship** is awarded to all international students providing them with a springboard to kickstart their global career at LSBU, meaning the practical career-focused courses provide even greater value.

The awards allow students to fast-track their student visas to enable them to start their studies on time.

To be eligible, the student must be an international student fee payer at the undergraduate or postgraduate level, meet the conditions of their offer and complete payment of their deposit (£2,000) within four weeks of meeting all the conditions.

The awards are designed to ensure that all international students benefit from the high-quality, career-focused education that London Sound Bank University offers.

Situated in the heart of London, LSBU is ideally placed to provide employment opportunities both during and after university. Our excellent links with local employers will equip students with employment skills for their future careers, wherever they choose.

We also offer the opportunity to live in affordable, high-quality student accommodation within a short walk from campus. International students are guaranteed a place in one of our three accommodation blocks for the duration of their course.

In addition, given our central London location, while studying at LSBU students are ideally placed to get paying jobs with a local employer and are prioritized for jobs on campus.

Our Student Support services are second to none, providing support across all areas, from mental health to study skills and employability.

We have students from 130 countries and around 50 between communities and societies to enhance the student experience here at LSBU ensuring that all students will settle in and feel welcome in their new home.
