

# A postcard from LSBU alumni.....

## Meet Christine, Midwifery, 2005

**Before she was a Nurse, she was an LSBU student.**

- Name: Christine Adamson
- Job title: Lead Research Nurse
- Where I work: Clinical research department at a London Hospital

"My current role is Lead Research Nurse. I manage a team who undertake clinical research to make tomorrow's healthcare better - I love being part of the solution, and I would not be in my current role without my degree.

LSBU gave me the chance to enhance my career and to become the leader I am today.

My advice to you is....

**Believe in yourself and try to ignore negativity, everyone has something unique to offer".**
