Rise together

**What will the university
experience be like after
lockdown?**

The last year or so has looked a bit different to normal. During lockdown we took a blended learning approach, with lectures happening online with on-campus teaching on practical courses, when it was safe to do so. The plan is to return to on-campus teaching again for September, with all services and facilities open. Of course, we need to follow UK government guidelines and will keep you updated on any changes to these plans.

Your education will help to rebuild communities and shape the new world post-lockdown. Here, we encourage digital skills for innovation, we promote equality and inclusion, and we facilitate connections for your chosen subject of study.

Many of our students are local to London, and grew up or live near our Southwark, Havering and Croydon campuses. Our students and staff are part of the local community, and play a key role in its progress.

What makes London extra special is the diverse community, with all cultures and ideas coming together as one. However, the pandemic and Brexit has caused confusion for many overseas students. We're here to help and have dedicated support for you should you have any concerns about studying in the UK.
