Primary Care Training & Engagement

Improving CYP Asthma Outcomes

PURPOSE / INTENTION

- 1) Improve quality of care for CYP with asthma
- 2) Reduce asthma related emergency healthcare episodes
- 3) Reduce unwarranted cross borough variation in care

A package of interventions with a cross boundary focus

SYSTEMS LEADERSHIP

"The collaborative leadership of a network of people in different places and at different levels in the system creating a shared endeavour and cooperating to make a significant change"

(NHS Virtual Staff College)

a new cross-sector collaborative asthma care network
