How to connect to Wi-Fi

LSBU uses the *Eduroam* service to connect Wi-Fi devices from campus hotspots. Once you’re set up, you’ll automatically be connected whenever you’re in range. Wireless Internet access is available across campus, though not in Halls of Residence.

**Windows**

*Note for Windows XP users:* while the screenshots may differ, the options and dialog boxes will remain the same.

1. Select **Start button > Control Panel**
   a. If in normal view, choose **View network status and tasks**.
   b. If in Classic view, choose **Network and Sharing Center**.

2. Select **Connect to a Network**.

3. Type *eduroam* in the **Network Name** field.

4. Select **WPA2-Enterprise**.

5. Select **Next**.
6. Select **Security** tab. 
By default this should read: 
Security Type: WPA2 Enterprise 
Encryption Type: AES 
Network Authentication: PEAP

7. Select **Settings**.

8. In the **Protected EAP** properties dialog box, uncheck **Validate server certificate**.

9. Under **Select Authentication Method**, choose **Secured password (EAP-MSCHAP v2)**.

10. Select **Configure**…

11. In the **EAP MSCHAPv2 Properties** dialog box, uncheck the **Automatically use…** dialog box.

12. Click OK until you reach the **Manually connect to a wireless network** dialog box.

13. Select **Close**.

14. Right-click the **Wi-Fi** icon in the system tray:

15. Select **eduroam** and **Connect**.
How to connect to Wi-Fi
